Developers are leveraging Record Retrieval Solutions' 30 years of experience to create **RecordNext**, a powerful cloud-based HIPAA-compliant solution built to simplify receiving records requests from attorneys, insurance companies, record retrieval services, and other third parties.

RecordNext eliminates the hassles and delays in today's process:

- All requests are received through a single convenient online portal. No more faxes and mailings.
- RecordNext makes it easy to screen requests for accuracy and completeness.
- Post progress updates online and put an end to repetitive status check calls.
- Opt to receive payments online before records are released.
- Plus more ways to streamline and eliminate the tedious tasks involved in responding to third-party requests.

RecordNext brings these valuable benefits and more **to medical providers for FREE.**

Pay nothing - EVER - while RecordNext frees up your time to pursue more rewarding tasks and boosts your enthusiasm for the more meaningful work you love.
