

Oh, no. You've collected stacks and stacks of paper medical records. Or, you've got them in a hundred separate PDFs. And now you need to find out exactly which dates of service are and are not covered in the records you've received.

Or, you thought a single phone call would do the trick to get the custodian to send the records you need. But, weeks have passed without receiving them, and now you need to get in touch again.

Anyone who has undertaken the task of obtaining medical records for legal or insurance purposes for any length of time soon discovers there are some details you cannot let slip by. Certain information and activities must be monitored if you dream of experiencing a hiccup-free records retrieval process.

Otherwise, you waste tons of effort on time-consuming tasks like repeatedly looking up contact information, trying to recall important details from memory, or tediously searching through mountains of records for small but critical details like dates and dollar amounts.

Your time is too valuable to squander away like that!

So, we've drawn up a list of [8 Critical Details to Track to Avoid Delays When Obtaining Medical Records](#)

Keep track of the information on this list, and in no time you'll be sailing smoother seas, obtaining medical records with less effort and fewer delays.

Of course, don't forget that our records retrieval specialists are always on standby, ready to take over at the helm, handle the entire process for you, and save your firm even more.

From the crew at RRS, we wish you happy sailing in the days ahead!
